

EBS Point of Sale

MYOB Exo MYOB Advanced

EBS Point of Sale is an industry leading system integrated with both MYOB Exo and MYOB Advanced.

Overview

EBS Point of Sale is fully integrated with MYOB EXO and MYOB Advanced.

Ideal for either retail or commercial outlets of any size.

Off-line installations mean uninterrupted trade at all times.

Fully customisable menus mean easy operation, allowing for fast efficient throughput of customer transactions.

When To Consider

- When sales growth has exposed the current POS system's limitations.
- If seamless integration of functions between MYOB EXO and MYOB Advanced and the POS are required.
- Require the ability to sell to their customer base in multiple ways.

Who Should Consider?

- Businesses whose sales are either walk-up or wholesale retail (trade counters).
- Multi-location stores requiring extended POS functionality.
- Franchise and speciality retailers.

Implementation Process

1. Complete an information form so we can configure EBS Point of Sale/Advanced POS to suit your specific requirements.
2. Provide access to your MYOB Advanced or EXO software so we can setup the integration.
3. Review of self-training documentation and provision of formal training for all operators and supervisors.

Email sales@exobiz.com.au to arrange a demo.

Benefits

- Versatile and configurable to suit your specific business needs.
- Intuitive menu layout for ease of operator use.
- Comprehensive 'Quick Screen' function allows images and text to be created for faster product selection and customer throughput.

Features

- Compatible with MYOB EXO and MYOB Advanced - No additional interfaces required.
- Full Touch Screen functionality for ease of use.
- Customer Facing Screens available allowing interactive branding and advertising.
- Integrated EFTPOS connectivity.
- On premises, fully off-line databases - continue to trade even when your network is down.
- Full integration with all major hardware brands of Scanners and Scales.
- NMI certified.
