

EBS Reports MYOB Exo

EBS Reports is an industry leading system integrated with MYOB EXO.

Overview

EBS reports is a fully integrated reporting application allowing in-depth reporting across the business.

Extended reporting on Sales, Stock and Accounts allows for accurate Budget Forecasts, healthy inventory levels and accurate up to date Sales Analysis.

When To Consider

- When a company has outgrown standard reporting functions available in EXO.
- When inventory levels need to be more accurately controlled.
- When purchasing forecasting needs to be streamlined and based on real time data.
- Accurate Year on Year and Month on Month sales information is required especially when remote offices and personnel are included.

Who Should Consider?

- Growing businesses who need to control inventory and purchasing processes.
- Owners and managers who want detailed reporting at their fingertips.
- Process driven companies who need in depth analysis of inventory, purchasing and sales to keep on budget.

Implementation Process

1. Complete an information form so we can configure EBS Reports to suit your requirements.
2. Provide access to your MYOB EXO software so we can setup the integration.
3. Review of self-training documentation and provision of formal training if required.

Email sales@exobiz.com.au
to arrange a demo.

Benefits

- A one stop reporting package for full, accurate reporting of all facets of the business.
- Compatible with most industry demographics.
- 'Single click' export of reports to alternative software packages.
- Accurately forecast budgets and sale targets using single reports.
- Forecast purchasing to ensure stock is available when required every time – reduce the need to place Sales Order items on 'back order' and maintain a healthy relationship with customers.
- Ensure a healthy inventory at all times by identifying dead or slow-moving stock items easing cash flow constraints due to tied up dollars.

Functionality

Fully integrated Sales Analysis reporting

- Sales Budget Management
- Product Sales Analysis
- Visual Analysis – Costs, Sales, GP%
- Standing Orders
